HACKNEY

## THE OTHER FACE OF LOVE: FOOD

Supper Club @ Frizzante  
Valentines Day, 14th Feb 2018 @ 7pm

Frizzante will kick off the New Year evenings & events season with a cosy, intimate Supper Club.

We Italian people strongly believe that feeding someone is a statement of primordial love, **A LOVE DECLARATION.**

Italian culture is unquestionably based on food.

From north to south, Italian identity was built around a culinary cultural space that over the centuries has cemented the essence of the nation.

A network of exchanges and sharing, a "common language" made of knowledge, practices, habits and tastes, has held together geographically and historically different territories - recognized, within and outside Italy - as parts of a single country

Our Chef Eddy Ambrosi, along with a pair of Talented Italian chefs, Luca and Enrico, will present a food & wine menu representing different Italian Region in a celebration of love and food as the two main factors of unity in our culture

To all those who are still looking for **a romantic venue to spend their St valentine night** and to those who want to spend it in a special, different way, together with friends, in a social table and with a fresh, homemade ... Italian good food.
